

These “General Conditions of Carriage” apply, except as otherwise agreed in writing or as provided herein, to all air transport services performed for and contracted by the “Charterer” under an accepted flight confirmation (“Flight Confirmation”) and/or air charter agreement (“Air Charter Agreement”), and further commonly called “Agreement”, concluded between such Charterer and the air carrier providing air transport services (the “Air Carrier” or “Carrier”), the latter being either:

- (i) ASL N.V., a company incorporated in and under the laws of Belgium, registered under number (CBE/VAT) BE0461940625, having registered office at B-3500 Hasselt (Belgium), Voogdijstraat 29; or,
- (ii) JETNETHERLANDS B.V., a company incorporated in and under the laws of the Netherlands, registered under number (VAT) NL809587907B01, having registered office at NL-3045AP Rotterdam (the Netherlands), Rotterdam Airportplein 54; or,
- (iii) ASL B.V., a company incorporated in and under the laws of the Netherlands, registered under number (VAT) NL863888409B01, having registered office at NL-3045AP Rotterdam (the Netherlands), Rotterdam Airportplein 54; or,

Wherever the term “Charterer” is mentioned, this term will include the passengers boarding the aircraft contracted under the Agreement, which passengers will also be bound by these General Conditions of Carriage.

1. Aircraft Charter - Supply of Air Transport Services

Subject to the terms of the Agreement and these General Conditions of Carriage, Carrier undertakes to provide the Charterer air transport services, and the Charterer herewith agrees to take air transport services from the Carrier with the entire capacity of the (type of) aircraft as specified in the Agreement (the “Aircraft”) for the performance of the air routing(s) as per the schedule and the specific conditions as specified therein.

2. Carrier’s Licensing - Operational Control

2.1. Commercial Air Transport Licensing - The Aircraft object of the Agreement will be operated by the Carrier, duly licensed for and under the applicable rulemaking for the conduct of commercial air transport operations, more specifically the EASA Part-CAT rulemaking in conformity with Regulation (EU) N° 965/2012 and its amendments and the national applicable legislation as issued by the authorities under which competency the Aircraft is operated and the licensing is issued, whichever is applicable. As such, the Carrier shall ensure that the Aircraft is, for the conduct of the flights considered under the Agreement, operated (i) in accordance with Carrier’s EASA Part-CAT air operator certificate (AOC), and, as a linked condition thereto (ii) under Carrier’s operating licence issued in accordance with Regulation (EC) N° 1008/2008, as amended, and (iii) with an EASA certificate of airworthiness with valid airworthiness review certificate issued by the Continuing Airworthiness Management Organisation of the Carrier in conformity with Regulation (EC) N° 2042/2003, as amended.

2.2. Charterer’s Subordination - The Charterer undertakes to subordinate to Carrier’s licensing conditions and requirements that apply, and not to jeopardize or to prejudice anyhow the position of the Carrier under the conditions and requirements of its licensing for commercial air transport operations under EASA Part-CAT.

2.3. Operational Control - The Charterer agrees that the Carrier has full operational control and responsibility over the Aircraft and the flights to be conducted with the Aircraft under the Agreement. As such, and in respect of the safe and secure operation of the Aircraft, the Carrier, by virtue of the captain of the Aircraft, shall, amongst others, have complete authority and discretion (i) as to whether or not a flight should be undertaken, (ii) in respect of the amount of passengers, space and (cargo) load available on the Aircraft for utilisation and its distribution, (iii) as to where landings should be made in deviation to the requested flight schedule. The Charterer undertakes to accept all such decisions by the captain of the Aircraft.

3. Aircraft Unavailability or Unserviceability - Subcontracting by Carrier

3.1. Aircraft Unavailability or Unserviceability - In the event of unavailability or unserviceability of the Aircraft immediately prior or during the flight schedule of the Agreement, for whatever cause beyond the reasonable control of the Carrier, and by which the Carrier can’t properly perform the contracted air transport services under the agreed flight schedule under the Agreement, the Carrier will have no other or further obligation or liability then to use its best efforts to source internally or externally a substitute aircraft for the Charterer in order to undertake or to continue to undertake the requested flight schedule under the Agreement. In case no substitute aircraft can be sourced, the Carrier shall have the right to cancel one or more flight(s) contemplated under the flight schedule of the Agreement in accordance with Section 7.1. herewith.

3.2. Carrier's Subcontracting applicable Terms and Conditions - In the event the Carrier is subcontracting an aircraft in accordance with Section 3.1., not operated by the Carrier but by a third party licensed operator, the Carrier commits to the Charterer that the subcontracted Aircraft complies with the EASA Part-CAT licensing requirements as set out under Section 2.1. (or equivalent rulemaking if the Aircraft does not report under the EASA rulemaking), and the Charterer agrees that the Carrier acts as an indirect air carrier and not as a broker or agent, and that the general terms and conditions of carriage of the subcontracted actual carrier will apply and prevail to these General Conditions of Carriage, which herewith allow the subcontracted actual carrier to enforce its general terms and conditions of carriage by which the Charterer (and its passengers) will be bound.

4. Own Use Only and Unused Capacity

4.1. Own Use - Except in the event the Charterer is an air charter broker, acting on behalf of its client but under its own name and liability, the Charterer undertakes to use the Aircraft in respect of the air transport services for the own use of Charterer's passengers and their baggage only; the Charterer is not entitled to subcontract by reselling or subcontracting neither any part nor the entire capacity of the Aircraft. In the event the Charterer is an air charter broker, the Charterer is only entitled to subcontract the air transport services object of the Agreement to a single end user for the entire capacity of the Aircraft, without entitlement to sell individual seats on the Aircraft.

4.2. Unused Capacity - The Carrier shall be entitled, at its own discretion, and without compensation but with no surcharge to the Charterer, to use any unused capacity of a flight, and any part of the flight schedule, unused by the Charterer.

5. Flight Times and Flight Schedule Changes

5.1. Flight Times - The flight times calculated and shown in the flight schedule are approximate and not guaranteed by Carrier.

5.2. Flight Schedule Changes - The Charterer may ask Carrier to make reasonable alterations, deviations or timing changes to a confirmed flight schedule, in which case Carrier reserves the right to charge any and all costs related thereto, such as but not limited to costs for additional flight preparation, airport related costs, additional flight time, etc. resulting from the schedule change. In the event the Carrier would ask the Charterer for any alteration, deviation or timing change to a confirmed flight schedule, any related cost thereto would be borne by the Carrier.

6. Denied Boarding, Deviation, Delay and Cancellation

6.1. Denied Boarding, Deviation, Delay and Cancellation - Except where and unless when Regulation (EC) N° 261/2004 on compensation and assistance to passengers in the event of denied boarding and of cancellation or long delay of flights would apply, Carrier shall not be liable for denied boarding, deviation, delay or cancellation of one or more of the flights contracted under the Agreement if such denied boarding, deviation, delay or cancellation is caused by force majeure or any reason beyond the reasonable control of the Carrier, such as but not limited to labour or civil disturbances, strikes, war, pandemic, acts of god, airport closure, air traffic control, weather conditions, natural disasters, incidents with the Aircraft or ground equipment, crew duty time limitations for crew duties beyond the accepted flight schedule, actions of other aircraft operators, security clearance, handling companies and their agents, personal belongings left onboard by the passengers, local, national or international public health requirements or other national or international mandatory regulations, hindrances caused by authorities or third parties, etc. In contrary, where the Charterer or anyone acting on Charterer's behalf, including Charterer's passengers, would cause a denied boarding, deviation, delay or cancellation, Carrier will be entitled to claim indemnification for the damage suffered by the Carrier.

6.2. Cancellation by the Carrier - In the event of cancellation by the Carrier in accordance with Section 6.1., the Carrier will repay the Charterer the charter price or part thereof for the flight schedule not (to be) performed; Charterer will anyhow be committed to pay the (pro rata) charter price for (the part of) the flight schedule which has been or will be performed.

6.3. Cancellation by the Charterer - Subject to the provisions of Section 7, in the event of cancellation by the Charterer for any other reason than a reason considered under Section 6.1., the Charterer will be committed to pay the Carrier a cancellation fee as specified in the Agreement.

7. Termination

7.1. Non-Default Termination - Except where and unless Regulation (EC) N° 261/2004 on compensation and assistance to passengers in the event of denied boarding and of cancellation or long delay of flights would apply, it is understood that in the event Charterer or Carrier unilaterally terminates the Agreement or cancels the performance of one or more of the flights considered under the Agreement for other reason than default of the other party, the terminating party will pay the other

party an indemnification equal to the applicable cancellation fee as specified in the Agreement, or, if more stringent cancellation terms may be imposed by the indirect air carrier as may be subcontracted as actual carrier, the cancellation terms applicable with the subcontracted actual carrier will apply to the Charterer. Such cancellation fee will be function of time of exercising the written cancellation notification.

- 7.2. **Charterer Default Termination** - In the event of any breach by the Charterer of any provision of the Agreement, Carrier has the right to cancel the Agreement, and, in the event that one or more of the contracted flights has/have commenced, to terminate such flight all without liability of any kind to Carrier and, to retain all amounts as have been paid by the Charterer and, to demand all other amounts due under the terms of the Agreement regardless of its cancellation. Neither the payment of the charter price nor the termination of the Agreement for any of the aforesaid reasons shall affect the right of Carrier to collect damages from the Charterer.
- 7.3. **Carrier Default Termination** - Except where and unless Regulation (EC) N° 261/2004 on compensation and assistance to passengers in the event of denied boarding and of cancellation or long delay of flights would apply, it is understood that in the event of any breach by the Carrier of any provision of the Agreement, Charterer shall have the right to cancel the Agreement, and, in the event that one or more of the contracted flights has commenced, to terminate such flight, however without any further liability of any kind to Carrier except to return to the Charterer the amounts equal to the flights as contracted but not performed, and the Agreement will end.
- 7.4. **Written Notice** - Any termination or cancellation congruent to this Section 7 will be notified in writing to the other party, by e-mail or equivalent digital communication providing tracking evidence.

8. Specific Air Transportation Requirements

- 8.1. **Flight Schedule** - The Charterer undertakes to provide Carrier with the flight schedule with sufficient prior notice enabling Carrier to timely process the applications for the required authorizations or permits from governmental or other authorities necessary for the performance of the flight(s) considered under the flight schedule as requested by the Charterer under the Agreement (such as but not limited to traffic rights, airport and airway slots, apron parking availability etc.). Carrier covenants that it will timely apply for such authorizations or permits. However, Carrier will not be liable for any refusal, untimely granting or cancellation of such authorization or permit, provided that Carrier was in the position to and effectively has processed the applications within the published time frames.
- 8.2. **Passenger Information** - Charterer is committed to timely provide the Carrier full passenger details at least 48 hours - or earlier if the applicable rulemaking requires so - in advance in respect of Carrier's Advance Passenger Information obligations. Any non-timely provision thereof may result in delay of the flight(s) considered under the flight Schedule, loss of airport slot(s), and applicable governmental penalties, which will be borne by the Charter.
- 8.3. **Documents** - Carrier will issue the air travel documents in accordance with the requirements, practices and procedures of Carrier. The Charterer and its passengers will be bound by the terms and conditions of the issued documents. The Charterer undertakes to co-operate in supplying all information in connection with the passengers and their baggage in due time as required for the completion of the documents. - 8.4. **Baggage** - Subject as otherwise provided in the Agreement, the baggage size and weight of the hold baggage and hand baggage is limited by the space and the maximum weight capacity of the baggage compartments of the Aircraft. The Charterer guarantees that any baggage to be transported does not contain items which could endanger the Aircraft or persons and that their transport is not prohibited by the laws, regulations or other applicable provisions.
- 8.5. **Animals** - No animals or pets shall be transported on the flights considered under the Agreement, unless prior written approval by the Carrier, which approval will be subject to (i) assumption of the full responsibility for the safety, health, and conduct of the animals and pets by the Charterer (and its passenger(s) concerned, and (ii) compliance - at the charge and expense of the Charterer - with all governmental requirements, regulations or restrictions, including entry/exit permits and required health certificates of the respective countries, states, or territories or any other document, permit or certificate as may be required.
- 8.6. **Security Prohibited Goods** - In accordance with Implementing Regulation (EU) 2015/1998, as may be further repealed, amended or replaced, the passengers shall, for reasons of security, not be permitted to carry into security restricted areas or on board of the Aircraft, or to carry in their hold baggage the articles or substances listed in Annex 2 to these General Conditions of Carriage. The Carrier will notify the Charterer (including all its passengers) by separate notice under Annex 2 to these General Conditions of Carriage with a pragmatic version of those security prohibited goods, which are also available for

consultation on the website of the Carrier (www.aslgroup.eu), and which will be forwarded by the Carrier to the Charterer by e-mail together with the Agreement and these General Conditions of Carriage. The Charterer will comply with and cause all passengers and owners of goods or cargo carried to observe and comply.

- 8.7. Prohibited Dangerous Goods** - In accordance with Regulation (EU) N° 965/2012 and as may be further repealed, amended or replaced, "Dangerous Goods", meaning articles or substances which are capable of posing a risk to flight safety, health, property or the environment, and which are shown in the list of Dangerous Goods in the latest effective edition of the 'Technical Instructions for the Safe Transport of Dangerous Goods by Air' to Annex 18 of the Chicago Convention, including the supplement and any addenda (ICAO Doc 9284-AN/905), as approved and published by ICAO ("ICAO Dangerous Goods Technical Instructions"), or which are classified according thereto, are forbidden for carriage by passengers (or crew) whether in checked hold or carry-on baggage, or on their person, except as permitted. (Subsection 2.3.)) of the IATA Dangerous Goods Regulations, which is a pragmatic version of the ICAO Technical Instructions. The Charterer will comply with and cause all passengers and owners of goods or cargo carried to observe and comply with the IATA Dangerous Goods Regulations.
- 8.8. Dangerous Goods Authorization** – In the event the Carrier and the Aircraft are authorized by the competent civil aviation authority issuing the air operator certificate to transport Dangerous Goods, the Charterer will be entitled to have the Carrier transported the Dangerous Goods as specified in and in compliance with the latest version of the IATA Dangerous Goods Regulations ("DGR"). When Dangerous Goods are to be transported by such authorized Carrier and Aircraft, the special terms and conditions as set forth in Annex 3 of these General Conditions of Carriage will apply. The Charterer will comply with and cause all passengers and owners of goods or cargo carried to observe and comply with the IATA Dangerous Goods Regulations.
- 8.9. Other Regulations** - The Charterer will comply with and cause all passengers and owners of goods or cargo carried to observe and comply with customs, police, public health and other regulations which are applicable in the country under which rules the Carrier is operating and in the countries overflown and where the Aircraft departs or lands.
- 8.10. Non-Smoking Flights** - Except as otherwise specified in the Agreement, all flights considered under the flight schedule are non-smoking flights.
- 8.11. Passenger Behavior** - If, in Carrier's reasonable opinion, the Charterer and/or its passengers conduct aboard the Aircraft so as to endanger the Aircraft, the safety and/or security of the Aircraft, and/or any person or property on board, or obstruct the crew in the performance of their duties, or fail to comply with any instructions of the crew including but not limited to those with respect to smoking, alcohol or drug consumption, or behave in a manner which causes discomfort, inconvenience, damage or injury to other passengers or the crew, the Carrier may take such measures as Carrier deems reasonably necessary to prevent continuation of such conduct. Charterer's passenger(s) may be disembarked and refused onward carriage at any point, and may be prosecuted for offences committed on board the Aircraft. Accordingly, the Carrier is entitled to divert the Aircraft to an unscheduled location of destination for the purpose of disembarkation of Charterer's passenger(s), and the Charterer will be liable for all costs and expenses related to such diversion and/or disembarkation.

Liability for Denied Boarding, Delay or Cancellation - Regulation (EC) N° 261/2004, establishing common rules on compensation and assistance to passengers in the event of denied boarding and of cancellation or long delay of flights, and repealing Regulation (EEC) N° 295/91, will only apply under the strict scope of applicability of the Regulation.

10.5. Liability as Indirect Carrier - It is expressly understood and agreed that Carrier, when acting as indirect air carrier in accordance with Section 3.1. herewith, will have no other or higher liability than the liability as referred to in former paragraphs under this Section, and that any such claimed liability will be by law transferred by means of recourse to the Carrier under its liability in accordance with the applicable laws.

This notice cannot be used as a basis for a claim for compensation, nor to interpret the provisions of the Regulation or the Montreal Convention, and it does not form part of the Agreement between Carrier and the Charterer (and its passengers). No representation is made by Carrier as to the accuracy of the contents of this notice. Note that, depending on your itinerary, the liability of the Carrier (including the Carrier as indirect air carrier) may be governed by other conventions, and in which case the liability limits are generally lower than those set forth hereunder.

- **Compensation in the case of death or injury** - There are no financial limits to the liability for passenger injury or death. For damages up to 113.100 SDRs (about € 138.000) the Carrier cannot contest claims for compensation. Above that amount, the Carrier can defend itself against a claim by proving that it was not negligent or otherwise at fault.
- **Advance payment** - In the event of death or bodily injury by a passenger, the Carrier must make an advance payment, to cover immediate economic needs, within 15 days from the identification of the person entitled to compensation. In the event of death, this advance payment shall not be less than 16.000 SDRs (about € 19.500).
- **Passenger delays** - In case of passenger delay, the Carrier is liable for damage unless it took all reasonable measures to avoid the damage or it was impossible to take such measures. The liability for passenger delay is limited to 4.694 SDRs (about € 5.725) per passenger.
- **Baggage delays** - In case of baggage delay, the Carrier is liable for damage unless it took all reasonable measures to avoid the damage or it was impossible to take such measures. The liability for baggage delay is limited to 1.131 SDRs (about € 1.380) per passenger.
- **Destruction, loss or damage to baggage** - The Carrier is liable for destruction, loss or damage to baggage up to 1.131 SDRs (about € 1.380). In the case of checked baggage, the Carrier is liable even if not at fault, unless the baggage was defective. In the event of unchecked baggage, the Carrier is liable only if at fault.

- **Liability of contracting and actual carriers** - If the carrier actually performing the flight is not the same as the contracting air carrier (the "Carrier"), the passenger has the right to address a complaint or to make a claim for damages against either. If the name or code of an air carrier is indicated on the air transport ticket, that air carrier is the contracting air carrier.
- **Time limit for court action** - Any action in court to claim indemnification must be brought within 2 years from the date of arrival of the Aircraft, or from the date on which the Aircraft was supposed to have arrived.
- **Exoneration** - If the Carrier proves that any damage covered by these liability rules was caused or contributed to by the negligence or other wrongful act or omission of the person claiming compensation, or the person from whom he or she derives his or her rights, the Carrier shall be wholly or partly exonerated from its liability to the claimant to the extent that such negligence or wrongful act or omission caused or contributed to the damage.

This notice has to be read in conjunction with Regulation (EC) N° 261/2004 on compensation and assistance to passengers in the event of denied boarding and of cancellation or long delay of flights.

Charterer commits to have duly circumvented and communicated this notice to the passengers boarding the Aircraft under the Agreement.
