

## PERFORMANCE & SPECIFICATIONS

The Vision Jet is a breakthrough in personal aviation. It goes faster: 300+ KTAS cruising speed. It goes farther: over 1,200 nm. It carries more payload: up to five adults and two children. But the remarkable achievement is that you can have this level of jet performance in a true personal aircraft that doesn't require an entire flight operations department to fly and maintain it.

### STANDARD FEATURES

Cirrus Airframe Parachute System® (CAPS®)  
Safe Return™ Emergency Autoland  
Full Authority Digital Engine Control (FADEC)  
Perspective Touch+™ by Garmin®  
Dual WAAS GPS/Comm/Nav Radios  
Aircraft Systems Synoptics Display  
Dual AHRS, ADC & Pitot Static  
NextGen Transponder (ADS-B Out)  
Synthetic Vision Technology  
FliteCharts & SafeTaxi<sup>1,3</sup>  
Weather Datalink & Audio Entertainment  
300 lb Baggage Capacity  
Certified Flight Into Known Ice  
Modular Seating for Five Adults

Intelligent Batteries  
GFC 700 Autopilot including:  
Electronic Stability & Protection (ESP)  
Emergency Descent Mode  
Blue Level Button  
Autopilot Stall Protection  
Leather Interior  
Air Conditioning with Automatic Climate Control  
USB Power Ports  
Stall Protection Stick Shaker & Pusher  
Fits inside Standard 40 ft (12.2 m) Hangar  
Cargo X-Tend™  
ADS-B In Weather and Traffic  
TAWS-B

### OPTIONAL EQUIPMENT

Digital Real-Time Weather Radar  
SurfaceWatch™  
6th and 7th Third Row Seats  
Executive Seating Configuration  
22" Entertainment Display  
115 VAC Power  
Rear Passenger Climate Controls  
Cirrus Global Connect

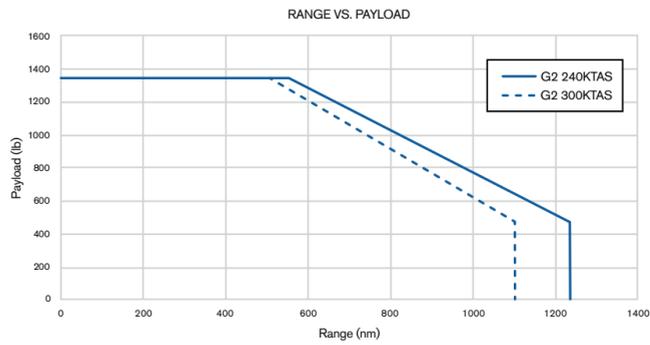

Xi® (Individualized Exterior & Interior)  
Multi-Tone Paint  
Enhanced Interior Lighting  
Enhanced Vision System Camera  
Gold Reflective Windshield & Cabin Windows  
Relief Station  
Auto Throttle  
Interior Sound Reduction

VISION JET™

SURFACE WATCH

AUTOTHROTTLE

One of the many hallmarks of Cirrus Aircraft innovation is our constant improvement of the flight experience – and Cirrus Perspective Touch+™ by Garmin® leads the way. As the center of the pilot experience, Perspective Touch+ integrates the sophisticated systems in the Vision Jet into one intuitive interface. Ease of use increases situational awareness and allows for focused attention outside of the aircraft. And Autothrottle brings enhanced automation to your Generation 2 Vision Jet, allowing you to program your entire flight profile, including climbs and descents. The intelligent automation and seamless integration in the Vision Jet opens up a whole new flight of possibilities.

## INTEGRATED TECHNOLOGY

## THE PERSONAL JET DEFINED.

The Vision® Jet is the culmination of enthusiastic and relentless innovation. As the world's first Personal Jet™, the Vision Jet excels in performance and is simple to fly. It's easy to own and operate. And it's a joy to travel in, as a pilot and as a passenger.

With the Vision Jet, we ushered in a new era of personal transportation. An era where jet speed, jet comfort and jet convenience are accessible. And after winning numerous accolades and awards – including the Robert J. Collier Trophy – we are just getting started.

## TRANSFORMATIVE LUXURY CABIN

Designed around the largest cabin in its class, the uniquely constructed carbon fiber fuselage creates spaciousness, with unexpected head and shoulder room. And panoramic windows provide an immersive experience for everyone in the cabin.

Modular seating adds versatility to the cabin – accommodating up to five adults and two children. Family seating features three cabin seats with two optional child seats, while Executive Seating offers two luxuriously bolstered seats and a center console. Each seat can easily be moved, giving you the added flexibility to tailor the cabin configuration to your needs.

## ELEVATED CAPABILITIES

Every travel mission is unique. From passenger and gear loads to weather changes and distances, the Vision Jet adapts to your specific travel needs.

With Generation 2, an expanded flight envelope to FL310 broadens your options. Increase your range to over 1,200nm or choose to carry an additional 150lbs on an 800nm mission. And with Reduced Vertical Separation Minimum (RVSM) capability, your Vision Jet can fly efficiently navigate higher flight levels. It's one more way to experience The Cirrus Life™, at jet speed.

CIRRUS APPROACH™ FLIGHT TRAINING

CIRRUS AIRFRAME PARACHUTE SYSTEM®

ELECTRONIC STABILITY & PROTECTION

SAFE RETURN™ EMERGENCY AUTOLAND SYSTEM

## TOTAL SAFETY

The ultimate level of confidence starts with the total safety solution exclusively offered in every Vision Jet. Available for the first time, the Safe Return™ emergency autoland system joins an array of revolutionary safety systems, including the Collier award-winning Cirrus Airframe Parachute System® (CAPS®), designed to protect the pilot and passengers.
